

LUXAR[®] insulating glass - Silverstar[®] Selekt

The right choice for improved transparency and a clear view with low-e insulating glass

<p>Hightec for man and environment</p> <ul style="list-style-type: none"> • high light transmission & reduced mirror like effects with LUXAR anti reflective glass • more flexibility in the design of modern buildings and facades • attractive optical performance 	<p>Allrounder combi - coating</p> <ul style="list-style-type: none"> • Wide application because of the characteristics of the coating (for sun and heat protection application) • Balanced interior temperature during summer and wintertime 														
<p>Excellent U-value</p> <ul style="list-style-type: none"> • low energy consumption • more comfort • less CO_x emissions 	<p>optimized solar properties</p> <ul style="list-style-type: none"> • Solar heat gain with 50% reduced the energy consumption for air-conditioning
